Education is the most important pillar of building of nation's edifice. We as a nation have to go a long way in realising the dream of being an educated and enlightened nation. This dream shall remain elusive unless we give our very best to the field of education. Every segment of the society has to play an active role in attainment of the objectives we have set for achieving progress in this field. Government of Khyber Pakhtunkhwa is committed to make all resources available for providing better education to our future generations. Establishment of a modern scientific institution like Cadet College Swat would go a long way in this regard.

I affirm that the Provincial Government will play its part in realising the dream of the people of Swat and Malakand Division for a Cadet College in their area. This will recompense the sacrifices of the people and we are committed for completing the project from provincial resources. I commend the efforts of Pakistan Army for making the dream of establishment of Cadet College Swat possible in a short span of time and also wish all the people associated with this landmark project and its pioneers good luck and future success.
